Subject: Activate saves, trade all weapons etc.
Posted by dawkun on Tue, 03 Dec 2013 08:06:53 GMT

Hello, here is my problem.

I played earlier in normal version for PC (online with xlive account)
then i reinstalled wind.7 and i forgot about fable for 1 year

Now i've bought Fable3 + extras on STEAM so i downloaded and installed it and used key from
Steam (acctivated 2times key for fable3??? how could i do it?, logged on that old xlive account
and i have all achievements i've done before but i had to start playing from the begging...
collecting all weapons, upgrades etc. again - it takes much time and i can't play so much
(university).

I downloaded a few saves (hoping for save with all legendary weapons) but i tried, tried and the
save crashes again and again, is there any way to use those saves and transfer all legendary
weapons?
Or maybe some save editor and tutorial how to do it?

Or maybe some magic way to have my 1st old save (with almost all weps max upgraded) but it's
impossible i think, unless Microsoft saves everything on their HDD
