Alright. I'm working on this mod, and I want input. Just how BIG do you want to be able to go?

Bear in mind that you will be able to go from "normal" incrementally up (by mutton, beer, etc) to this size and back down (by carrots, celery, etc).

I posted some screenshots of a version for playing nude. This morph doesn't work well for clothing, however. It is rather. . . unsupported.

note: I am also using a nude mod I pulled off of youtube...

<https://www.youtube.com/watch?v=N5Bajb2IM4E> It's REALLY good! I covered the taboo bits to make them a little less objectionable.

Now the Screenshots...

First, the Heroine, with 2 strength and 4 stature, weighs in around a DD cup already!

5 tofu (which I don't think do anything for fat) and 6 carrots earlier... she was about a cup size bigger - something like an F cup.

6 carrots before that I'd say she was a small G cup (this is all guessing off of comparison research... I can't exactly measure her band and bust...

another 6 carrots ago (we're up to 18 now, three stalls full) she was probably a large G cup

and finally, at fully "fat" (before eating 5 celery on top of those 18 carrots) I'd guess her at GG

I am working more on a CLOTHED version now, which will look more like she's wearing a bra (but will look rather impossibly perky naked).

WOW... I've come a LONG way since I took these screenshots!

I've made improvements on breast shape, I've figured out nipples (It's gotten chilly in the sanctuary ;) , I've made HUGE strides on hips/butt/thighs...

Updates to come!
