Subject: How to Access DLCs?

My apologies if this is in the wrong section, but I am having some issues getting Fable 3's DLC working.

First off, I downloaded the game through questionable means, as Lionhead has closed and there are no other legitimate methods to acquire the game or the DLCs. I installed it via the Cracked Skidrow + DLC method. I have all the DLCs in my content folder. But they simply will not activate in-game nor show up in the Sanctuary shop.

Hunter's Lodge appears ingame, so SOME of the DLC is working, but I want all the little stuff like the dog potions and free weapons as well.

I have done some light reading on the subject here and there for around a day and a half, but I'm not trying to become a goddamn master modder just to activate some DLC for one game, so all I ask is this: What am I doing wrong?
