im new to fable 3 modding, after returning to my fable 3 game after 3 years, I was horrified to find I couldn't log into GFWL, during my search for solutions I stumbled into here, and immediately followed the very helpful tutorial's on getting xlive and dlc working, which everything so far works fine...

The image here is from another discussion where someone gave a solution, only issue is, I have no idea what to do with this

A little help for a noob please?

Care to explain how? I have no idea what I'm doing and after much searching I'm more confused about modding in the DLCs than when I started.

For the hunter lodge no modding is required. You just have to put the dlc into the DLC folder specified by whichever gfwl emulator you are using. Somewhere in between dweller and brightwall quests you'll receive the hunter's lodge deed automatically as a gift (along with a bunch of other dlc items). Or anytime after those quests.
