I have problem with changing clothes, when I go to the sanctuary before the quest from Page in the Bowerstone Mansion, I got stuck just after press the button to change clothes. Jasper gone, I can't get out of the sanctuary, even can't get out of the dress room. Is there a script or a way to prevent this from happening?

Note: Fixing it would be much better.. Thank you...

It could be as simple as the method you used to mod your game.

Did you directly modify scripts or go the DLC and/or custom scripts way?

It mightn't actually be possible to fix it during a game in progress. I ran into a problem with a character model that just upped and disappeared for no adequately explorable reason. SO I think certain pieces of data are tied to saved games.

No, I didn't mods the games yet, or am I in the wrong place for discussion?

I'm asking about how to fix a glitch that happen in Fable 3 when the Hero couldn't exit the changing room?

Please guide me to the right place for asking about glitch in the games.. thank you..

This is really odd. Stuff like that generally only happens with a modded version. Vanilla Fable 3 is actually pretty robust.

Can't leave the dressing room not even with the Esc key?

What you could try is this (I see no alternative):

Make a backup of your save games (C:\Users\Username\Saved Games\Lionhead Studios\Fable 3) and copy them elsewhere.

Delete your profile's save folder (probably a bunch of numbers or it might actually be a name).

This is to prevent cross-contamination.

Play up to that point to see if it happens again.

Sometimes save files just bork for no reason whatsoever.
